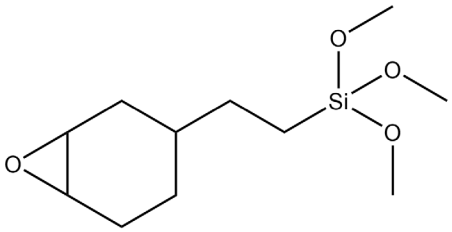
LANYACHEM
"The Chemistry We Serve"

YAC-O186

2-(3,4-Epoxycyclohexyl) ethyl trimethoxy silane



CAS No. 3388-04-3

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥98.0%
Color (Pt-Co)	≤30
Refractive index (nD^{25})	1.4430~1.4530

Package: 200Kg/Drum or 1000Kg/IBC

Application:

- Provides a stable storage effect without yellowing and an adhesion-promoting effect. It is suitable as an adhesion promoter for polysulfide, polyurethane, epoxy, and acrylic sealants and adhesives, and can significantly improve the adhesion and water resistance of sealants and adhesives to inorganic materials such as glass, metal, and concrete.

Storage: Store in sealed containers in a cool, ventilated and dry place away from light, fire and moisture.

Recommend Shelf Life: 12 months.
