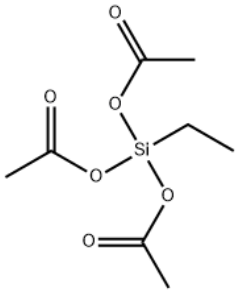
YAC-ETAS

(Triacetoxy)ethylsilane



CAS No. 17689-77-9

Specifications:

Tests	Specification
Appearance	Colorless to yellowish transparent liquid
Assay	≥90.0%
Density (25℃)	1.13~1.15g/cm^3
Refractive index (nD^{25})	1.401~1.421

Package: 200Kg/Drum or IBC

Application:

- The production is the main crosslinking agent for RTV-1 acetoxy sealant.
- The recommended dosage of this product is 3-5% of the total mass.

Storage: Containers should be tightly closed after opening to prevent water vapor from entering and producing hydrolysis.

Recommend Shelf Life: 12 months.
