YAC-N2313

Organic Silicon Quaternary Ammonium Salt

CAS No. 27668-52-6

Specifications:

Tests	Specification
Appearance	Light yellow transparent liquid
Water soluble	Completely water soluble and transparent
Active Content	59.0~61.0%
pH	5.0~6.5

Package: 180Kg/Drum

Application:

- It can adsorb negatively charged bacteria and has good bactericidal effects. It can be used in the processing of fibers such as cotton, nylon, and polyester, and has a wide range of applications. It is also used on materials such as non-woven fabrics, foamed polyurethane, and synthetic leather.

Storage: This substance should be stored in a sealed container in a cool, dry place, and kept away from acidic substances.

Recommend Shelf Life: 12 months.
