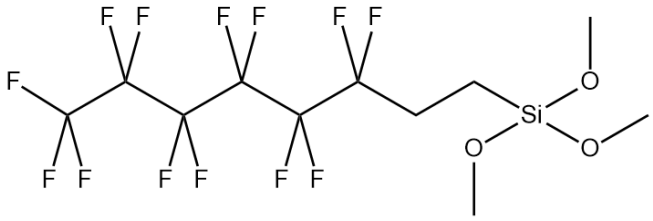
YAC-F813

1H,1H,2H,2H-Perfluorooctyltrimethoxysilane

CAS No. 85857-16-5



Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥97.0%
Density (25℃)	1.448~1.458g/cm^3
Refractive Index (nD^{25})	1.330~1.340

Package: 25Kg/Drum

Application:

- It can be used as an anti-fingerprint agent for high-end mobile phone screens, camera lenses, and other glass products, or as a water-repellent and anti-fouling agent for concrete. It is also used in CPE sheath materials for wires and cables.

Storage: Keep the container tightly closed and store in a cool, dry, and well-ventilated place.

Recommend Shelf Life: 12 months.
