YAC-O313

3-Acryloxypropyltrimethoxysilane

CAS No. 4369-14-6

Specifications:

Tests	Specification
Appearance	Colorless or slightly reddish transparent liquid
Assay	⩾98%
Density	1.046~1.066g/cm^3
Refractive index (nD^{25})	1.4160~1.4360

Package: 200Kg/Drum or 1000Kg/IBC

Application:

- It is used in industries like RTV resins and hybrid silane curing sealants, polysulfide sealants, plastic sealants, fiberglass, adhesives, and MS hybrid adhesives. It improves the electrical and physical properties of composites and increases physical strength in both dry and wet conditions.

Storage: Keep closed tightly closed stored in cool, dry and well-ventilated place.

Recommend Shelf Life: 12 months.
