

# YAC-MOS

## Methyltris(methylethylketoxime)silane

**CAS No. 22984-54-9**

### Specifications:

Tests	Specification
Appearance	Colorless or light yellow
Assay	≥95%
Refractive index $n_D^{25}$	1.4450-1.4650
Hazen (Pt-Co)	≤50
Chlorine	≤30ppm
Low boiling substance	≤2%
2-butanone oxime	≤0.1%
High boiling substance	≤3%
Effective content	≥97.0%

**Package:** 200KG Drum, 950KG Drum.

### Application:

- For room temperature vulcanizing silicone rubber curing agent, crosslinking agent, also used in plastics, nylon, ceramics, glass and silicone rubber bonding accelerator.

**Storage:** Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

**Recommend Shelf Life:** 12 months.
