

# YAC-VO1298

## Vinylsilane/alkoxy silane oligomers

CAS No. -

Specifications:

Tests	Specification
Appearance	Colorless or yellowish transparent liquid
Density (20℃)	0.99g/cm <sup>3</sup>
Refractive index (n <sup>25</sup> D)	1.4210-1.4310
Ash content(sio2 content)	46.0%±2.0%
Free chlorine	<100ppm

**Package:** Packed in plastic drums with a net weight of 25 Kg per Barrel.

**Application:**

- The alkoxy group in YAC-VO1298 is hydrophobic and significantly improves the electrical properties of the caulk, especially after exposure to humid air.
- YAC-VO1298 increases packing volume, increases creep behavior at increasing temperature, and also increases chemical resistance.
- The YAC-VO1298 has high impact strength, excellent high wear resistance, and reduces the tendency to crack under pressure.

**Storage:** Keep in a low temperature, ventilated and dry place.

**Recommend Shelf Life:** 12 months.
