

YAC-VOS

Vinyltris(methylethylketoxime)silane

CAS No. 2224-33-1

Specifications:

Tests	Specification
Appearance	Colorless or light yellow
Assay	≥95.0%
Refractive index n_D^{25}	1.4525-1.4725
Meko	≤1.0%
Low boiling compound	≤1.0%
High boiling compound	≤3.0%
Density (20°C)	0.9800-1.0000 g/cm ³
Hazen (Pt-Co)	≤50

Package: 200KG/950KG Drum.

Application:

- Mainly used for room temperature vulcanized silicone rubber, as a crosslinking agent (vulcanizing agent).

Storage: Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

Recommend Shelf Life: 12 months.
